

## **REMARKS**

### **Enablement Rejection**

Applicants gratefully acknowledge that the present claims are enabled by the present specification.

### **Anticipation and Obviousness Rejections**

The rejection of claims 1-5 and 7 a) under 35 U.S.C. §102(e) as being anticipated by Lishko *et al.* (U.S. Patent No. 5,753,263); b) under 35 U.S.C. § 102(f) or (g); and claims 8-12 under 35 U.S.C. § 103; are traversed and reconsideration is respectfully requested.

Applicants have submitted herewith a petition to correct inventorship under 37 C.F.R. § 1.48(a), a statement from the inventor to be added, a new oath and a consent of assignee. Upon receipt of an executed copy of the oath, statement and consent of assignee, applicants request that

The granting of such petition will obviate these rejections as the present application claims priority on the Lishko patent cited against the claims. Granting of this petition and withdrawal of this rejection therefore is respectfully requested.

### CONCLUSION

Claim 10 has been amended to overcome the indefiniteness rejection. It is respectfully submitted that all claims contain allowable subject matter and such indication is respectfully requested.
